

KIDZPACE INTERACTIVE INC

Kidzpace is a true success story not often duplicated. With its beginnings in the orthodontic market, Kidzpace has gone on to become an industry leader in the manufacturing and distribution of electronic client entertainment. After 15 years, Kidzpace continues to thrive in the orthodontic market while reaching clientele in a wide range of other markets. From quick-serve restaurants like McDonald's and Burger King to automotive dealerships, fitness clubs, senior centers, hospitals, and dental and orthodontic practices, Kidzpace has done it all with amazing success, always innovative and on the cutting edge of client entertainment.

Kidzpace builds unique "kid-friendly" and child-proof designs to house world-class electronic game

technologies from leading manufactures such as Sony, Microsoft, Nintendo, and Touch2Play.

From the latest electronic game centers to the most imaginative toddler play units available, Kidzpace offers a selection of attractive and engaging interactives to complement the design of any office regardless of size or configuration.

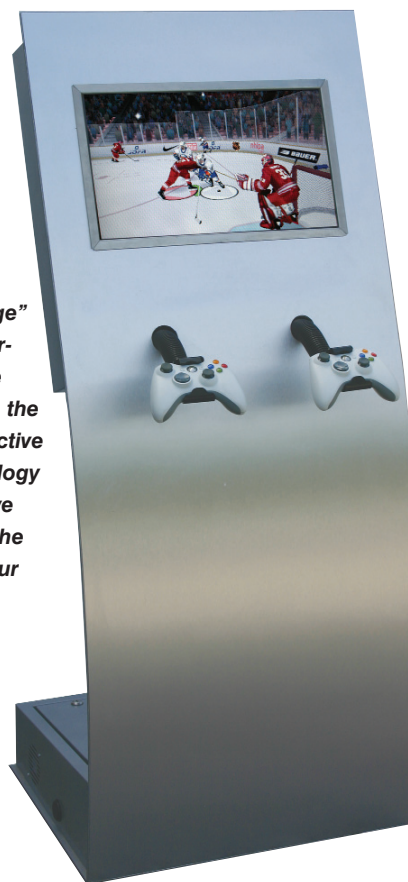

Kidzpace products will help your business to:

- Relax parents by keeping kids entertained
- Alleviate staff time by keeping kids entertained
- Gain an edge on competition
- Generate growth by increasing customer referrals

Touchscreen

Kidzpace's Touchscreen is made to fit your space. The best in compact digital entertainment offers more than 120 games so that toddlers to adults can have the Touchscreen experience.

Edge

Bring an "Edge" to client entertainment. The Edge delivers the best in interactive game technology with innovative design—get the "Edge" on your competition.

KIDZPACE INTERACTIVE INC

Quality products and outstanding service have been the cornerstones of Kidzpace's growth into more than 3,000 professional offices. Its ongoing technical service support has made Kidzpace the best and most reliable commercial entertainment solution available. Operating on a "no service, no sale" policy, Kidzpace will not entertain customers in areas where it cannot guarantee its own exemplary standards of support.

The entire Kidzpace product line is "made to order," allowing you to customize your game area to target your client demographic. Kidzpace has helped numerous orthodontists design their waiting rooms, game rooms, and even on-deck areas to maximize potential space. Sending Kidzpace your office schematic in advance guarantees proper game separation, player space, office flow, and safety. Once a layout is chosen, measurements for electrical placement will be mapped out with all the details you contractor requires. The only decision you will be left with is the colors!

New Products

Jr. Bike

Sport Bike

Get you practice moving with Kidzpace Active Play. The world of gaming is constantly evolving, and so too is the Kidzpace product line. "Active Play" products engage children and challenge them to enjoy physical play within a safe and comfortable environment, featuring today's popular video games controlled by the player's body and effort.

Skateboard/Snowboard

It's more than just entertaining the kids, it's about creating an experience that leaves your patients and their parents talking about your office!
